News Release

May 15, 2009

For Immediate Release

H1N1 Update

Due to the continued high level of surveillance for the H1N1 virus, the Brazos County Health Department anticipated confirmed cases of H1N1 in Brazos County. As of May 15, 2009, there have been two confirmed cases and two probable cases of H1N1 in Brazos County.

The health department will continue to follow any recommendations regarding the H1N1 virus made by the Texas Department of State Health Services (DSHS) and the Centers for Disease Control and Prevention (CDC), including standard epidemiological investigations.

The health department encourages response measures to avoid the spread of the flu.

- Stay home when you are sick and avoid close contact with others to prevent spreading illness to others.
- Cough or sneeze into the bend of your elbow or a tissue and properly dispose of used tissues.
- Wash hands frequently and thoroughly with soap and warm water or use an alcohol-based hand sanitizer.
