

# Brazos County Health Department

A City-County Public Health District

## News Release

April 5, 2010

For Immediate Release

### Food Establishments Post Inspection Scores

The Brazos County Health Department (BCHD) is requiring Brazos County food establishments to post their latest inspection report. This report includes the establishment's score, as well as any violations the establishment received. Food establishments are inspected two to three times per year, but only the most recent report will be posted.

The goal of this program is to provide open communication between the health department inspectors, the food establishment, and its' customers. Food establishments have the opportunity to share their inspection scores with their customers, while customers can review how a local establishment is doing. The report also educates the public on what inspectors are looking for when they go in for an inspection.

Inspection reports should be posted in all Brazos County food establishments by the end of June.
